The Islands of Solamar

In the summer of 2022, Sweetgrass Galleries had the opportunity and pleasure to work with the Solamar Condominium Association Design Committee.

The Solamar Board requested a refresh of the planters in the building's unique indoor/outdoor atrium.

The Design Committee members, Nancy Brinker, Rhonda Curry, Gabriel Pentelie and Ronda Zillner came to Sweetgrass with a vision using elements reflective of our gorgeous Florida coastal environment.

Sweetgrass advised the Committee the sunny and humid conditions in the airy atrium can fade silk florals and faux plants and proposed a design using UV protected, outdoor faux plants and succulents. Upon seeing samples of the materials, not only was the Design Committee delighted by the quality and beauty, so was the Board and other owners

who took the opportunity to see the samples. Many commented on how realistic the plants looked!
